I object to Uber operating in S C unless the cars have the same rules as cabs, they must have a taxi license plates or ls tag, ors stickers, drivers must have their own commercial insurance ( a 2500 to 6000 dollar per year cost for cabs) The same rules we have! I object to a suspension of the hearing date.

**Subject:** SC needs Uber

The recent cease and desist order issued to Uber is unnecessary and costs the citizens of South Carolina dearly. Uber provides an alternative transportation option that is safe and cost efficient, opposed to the high costs of taxi services. The drivers of Uber are small businesses unto themselves, and keep the majority of fares. This helps our local economy and creates a competitive marketplace. In my opinion this order is only in place to protect the grift between municipal governments and the taxi industry, and to hinder small business opportunity. This order promotes the status quo and demotes competition which is essential to our healthy local economy. Please protect your citizens by allowing us the option of safe, secure, and lost cost ride share option that Uber provides.

Thank you,

Aaron Rosenbrook
